ABANDONED SHIP AND PASSENGERS. THE CAPTAIN OF THE WHY NOT MAY TASTE FRENCH JUSTICE FOR DESERTING HIS BURNING VESSEL.

Paris. June 12.—A dispatch to the "Figaro" from St. Brieux says the police of Erquy are keeping the captain of the British vessel Why Not under surllance, and it is probable that he will be arrested on the charge of abandoning his burning ship on the high seas with her passengers on board. The Not had twenty passengers, all French, who were driven ashore at Erquy. Nineteen of them were saved and one was drowned in attempting to land.

London, June 12.-The passengers of the Why Not, which was on fire and abandoned at sea by her crew, who left the passengers to save themselves as best they could, have arrived in Jersey, whither they were bound for the purpose of working in the they were bound for the purpose of working in the potato harvest. When the boat was in the water the captain and crew got into it and rowed away.

THE WILKESBARRE FESTIVAL CLOSES,

NEW OPERA PERFORMED - CONTEST OF WOMEN'S CHOIRS THE PRIZE-WINNERS.

Wilkesbarre, Penn., June 12 (Special).-The music Interest in the day's proceedings was much more intense than on Tuesday, and the attendance was much larger. Unfortunately, however, there was en exhibition of singular and inexplicable apathy toward the affair on the part of the people of Wilkex-barre, and the managers are to-night contemplat-

The closest and, musically, most interesting test of this festival was that between six choirs of women conducted by women. Dudley Buck's ar-rangement of "Annie Laurie" was sung in every case with a great deal of grace and finish, and the adjudicators announced, in awarding the prize of \$100 to the women's choir of Wilkesbarre, that the difference between that choir and the body from Scranton was represented by only one point in the rating. The decision caused great tribulation among the Wilkesbarreans present, for though great is intensely keen, and the evidences are plentiful that the inspiring motive is money rather than

pure love of art. The Scrantonians had their revenge in the afternoon, however, when the same choir that had won the prize of \$300 on Tuesday also carried off the grand prize of \$1,000 from Wilkesbarre. The test pieces were the "Gloria" from Beethoven's mass in C and a chorus from Mackenzie's opera "Colomba." A prize of \$200 for mixed choirs of from a bonne bouche for the representatives of Minersville, who were permitted to sing by the Music
Committee, although there was no competitor.

In the performance of Dr. Mason's opera the
Oratorio Society had the help of Miss Anna L.
Walker, Mrs. Slater, Mrs. Baldwin and Mr. Auty,
of New-York, and Mr. Mills, of London. The book,
by Mr. Ap Madac, of Chicago, who was present,
was written in Welsh and translated into English
by the Rev. Erasmus W. Jones, of Utica, It is
called "Catrin, the Mald of Cevnydva," and deals
with an old Cymre love story of a grewsome kind.
A young woman, in love with a poet, is thrown into
prison and then forced to marry against her wishes.
She writes poems to her lover with her heart's
hlood, goes mad and dies. The opera is innocent
of dramatic action and dramatic music, but contains some interesting Welsh melodies and fluent
and sonorous choruses.

The crippled Glants met with another misfortune yesterday before the game with Cleveland was started. In the preliminary practice the manager, Captain Doyle, sprained an ankle so severely that he had to be carried to the clubhouse. With Doyle, Davis, Rusic and Meckin out of the game, there were not enough left to give the frisky Spiders even the semblance of a battle, and the 1.500 people left the grounds at 6 o'clock sorely disappointed.

Most of the home players seemed to feel the presence of the hoodoo who has hovered over the ence of the hoodo who has hovered over the grounds of late. With the exception of the playing of Burke, Tiernan, Farrell and Schriver, their work was dejected throughout. Ex-Director W. B. Wheeler was present, and was in earnest consultation with two of the present directors of the club. A charge of some sort seems imminent, and it cannot come too quickly. The Spiders took the lead in the third inning vesterday and had no trouble holding the advantage to the end. The score:

Providence, R. I., June 12 (Special). Brown and Har-vard crossed bats on Lincoin Field this afternion for the fourth and less game of their series. The game was hotly contested from start to finish, and some brilliant playing by toth teams prevented scoring at critical points in the game. The honors were about evenly divided be-tween Highlands and Summersgill in the pitchers' box. Each held his opponents down to seven hits. Summersgill was especially strong when the bases were filled, and more than once struck out the busenses were filled, and more than once struck out the butsman when a hit meant one tellers, Fultz and Lauder excelling for the home team,

NEW PLAYERS FOR ROCHESTER.

Rochester, June 12-A practically reorganized eam in Rochester uniforms will meet the Buffalo yesterday. Rochester backers have been on a still hunt for players during the last two weeks, but who the men they were after were no one knew but themselves. One of the new men, who will not join the club until Saturday, is not yet made known, but It is said that he is one of the best second basemen in the League. The signing of a new second base-man means the decapitation of Timothy Shinnick, captain and manager. The new man who will take his place at second will have to be purchased, and a part of the consideration which will be given for him will be right-fielder Payne. Pitcher McPartlin was released yesierday. The big find on which the managers are congratulating themselves is Mark Baldwin. He will probably go into the box tomorrow and will pitch against "Old Hoss" Vickery. Berger, the new catcher, will catch Baldwin. To sum the matter up, the new players are Berger, catcher; Tighe, shortstop; Baldwin, pitcher, and an unknown second baseman. The men released and to be released are McPartlin, pitcher; Pfenniger, shortstop; Shinnick, second base, and Payne, right field. him will be right-fielder Payne. Pitcher McPartlin

Like an open book, our faces tell the tale of health or disease. Fain and sufferwrong living write their history on our features in unmistakable lines. Hollow cheeks and sunken eyes, listless steps and languorous looks tell of wasting debilitat-ing disease some place in the body. It may be one place or another, the cause is generally traceable to a common source - impure blood, and impure blood starts in the digestive organs.
That most dreadful disease

- consumption - is what is known as constitutional. It is in the blood. In reality, it is scrofula of the lungs, and it can be cured 98 times in 100 if proper treatment be taken in its early stages. Sending good, clean, pure, rich, wholesome blood continuously through the diseased parts will gradually eradicate the disease. If the medicine taken be strongly purifying, healing and soothing, the cure will be even more rapid.

Dr. Pierce's Gelden Medical Discovery purifies the blood, stimulates digestive action, searches out

disease-germs wherever they exist and puts the whole body into a vigorous, strong and healthy condition. It builds up solid, useful flesh, rubs whole body into a vigorous, strong and healthy condition. It builds up solid, useful flesh, rubs out wrinkles, brightens the eyes and makes life really worth living. A big book of 160 pages telling all about it and full of good, sensible health hints, with numerous testimonial letters and reproduced photographs and addresses of those cured, will be sent free to any one who sends six cents and this notice to pay part postage.

FREE COINAGE PARTY NOT GROWING.

Members of the New-York Chamber of Commerce believe that, despite the efforts of the free-silver crusaders, the free coinage party is not growing. Gustav H. Schwab, the chairman of the Executive Committee of the Sound Money Committee in the chamber, said yesterday that the situation in the West indicated a decided growth of sound money sentiment. The split in the Populist State Con-vention at Des Moines, Iowa, in which the radical free silverlies were completely turned down, Mr. Schwab regarded as an especially healthy sign.
